Tri-Clamp® Gaskets

DSO™ offers a Wide Variety of Tri-Clamp Gaskets for Food, Beverage, Dairy and Pharmaceutical Processing Industries

DSO stocks a large inventory of sanitary Tri-Clamp gaskets for all applications in the food, beverage, dairy and pharmaceutical processing and bioscience industries. Our sanitary gasket stock ranges from 1/2" to 12" in a variety of standard and specialty materials. All gasket compounds meet the FDA criteria for food and beverage applications, USDA and 3A. Most sanitary gasket compound formulations have also been tested and certified to USP Class VI 87 and 88 standards for pharmaceutical and multi-use applications.

Selecting the proper gasket for a specific application is critical for the success of your application but also important for processing endurance and extended uptime. Call DSO or your local distributor with question regarding for your individual application.
